

Capability Statement

Statewide Oil Distributors and Southern Cross Lubes are a family owned business. The business has over 32 years experience with the Mobil brand. We are the largest Australasian Mobil Distributor covering NSW, ACT, VIC, WA, SA and TAS. We are also able to supply at a National level when required.

We have a focus, where it best suits the local marketplace, for supply of bulk and packaged Mobil Lubricants via our own modern fleet of vehicles including, purpose-built trucks for bulk, drum and package deliveries. Our fleet is all operated by our own company drivers, ensuring prompt on time deliveries.

As a quality lubricant supplier our product and services cover the following business areas:

Retail	Franchise Car Dealerships
Private Label	Mining
Agri	Drilling
Energy	Workshops
Civil Contractors	Mining Contractors
Transport	Marine

Our company is committed to:

Safety

Our long-life lubricants can help enhance equipment reliability and reduce maintenance, which limits potential employee risks and the possibility of leaks and spills.

Environmental Care

Our advanced lubricants can offer energy-efficiency benefits that lower energy costs and reduce greenhouse gas emissions. They also can provide for longer service intervals, which can reduce lubricant disposal and related maintenance waste.

Productivity

Enhanced equipment uptime and efficiency can boost your competitive edge by reducing production costs, maintenance expenses and equipment replacement.

Quality Management

Statewide Oil and Southern Cross Lubes are committed to providing products and services that satisfy our customers' needs for quality, performance and safety. We are seeking to improve our high level of quality, performance and safety through a process of continuous improvement which will include:

- Constantly striving to better understand and satisfy the needs and expectations of our customers.
- Continuously seeking improvements in our processes and services through evaluation of our performance.
- Training and encouragement of our employees, to seek improvements.
- Ensuring that our suppliers provide products and services meeting specified quality standards.
- Maintaining the highest standards of business conduct, environmental protection and employee safety.

Quality and continuous improvements in all aspects of our business are fundamental to the continued competitiveness and wellbeing of our company.

We operate under systems such as;

Quality Management System certified ISO 9001/2008 since 1995
OH&S Endorsed AS4801
ExxonMobil Distributor Product Integrity Management System.
