“ Making maintenance on-site safe, efficient and easy ”

Underground Replacement Parts

Bend-tech replacement parts are designed to suit specific underground machines. Our products are engineered to improve the safety and efficiency of underground operations and working at heights scenarios.

Safety

Our handrails are easily engaged and folded to ensure operators can maintain the critical 3-points of contact at all times. Kick plates incorporated into most handrails to minimise drop hazards from the deck. Our replacement parts have been designed with the safety of the operators and those in the surrounding work areas at the forefront.

Engineered Tough

All of our underground machinery replacement parts have been designed and engineered to comply with the relevant Australian Standard.

Environmentally Resistant

A heavy-duty zinc coating provides our parts with corrosion protection, followed by a safety yellow topcoat or machine specific colours.

Unrivalled Economy

Our low-folding handrails prevent damage, which reduces the chance of needing replacement. We are able to deliver our high performance, high quality replacement parts at a significant saving when compared to OEM parts.

Improved Hinge Design

Our field studies have yielded a hinge system that far exceeds the performance of the OEM hinge system. Constructed out of stainless steel to ensure corrosion resistance and improved functionality, our hinge system allows operators to easily engage and fold our handrails.

IMPROVED HINGE

CAT1700 Loader

CAT1700 Door

To suit Caterpillar 1700 JLK Machines
OEM No.291-0662

* **Part No. 5001817**

Benefits include:

- Heavy duty construction
- Significant savings which takes away the need for downtime while repairing damaged doors
- Can be supplied with seals and glass
- Precision manufactured for fast fit up to your machine

CAT1700 Folding Guards

Made to suit CAT 1700 Loaders, our fender acts as a wheel guard and is designed to withstand the harshest underground mining environments.

Benefits include:

- Heavy duty hinged folding system
- Double pin design to eliminate sagging
- No need to take off the fender when servicing behind the wheel guard
- Stainless pins with greasing points
- Patent pending

CAT1700 Dog Bone

Bend-tech's Dog Bone components are precision manufactured and machined from high tensile steel, with hardened and ground bushes. To suit OEM No.186-9866

* **Part No. 5001955**

Benefits include:

- Constructed in one piece to increase strength
- Grease channels underneath to prevent rock damage
- Grease channel machined into the dogbone body
- Patent pending

* **NOT INCLUDED IN FULL SET**

FULL HANDRAIL SET TO SUIT SANDVIK TH663 TRUCK PART NO: 5000150

SANDVIK TH663 / TH551 Truck

SANDVIK TH663 / TH551 Front Low Folding Handrail

This new design has been created to avoid the damages that occur on handrails that do not fold flat on the deck.

Benefits include:

- ▶ Replaces the long mid folding rail on the right hand side of the truck
- ▶ New low-folding design
- ▶ Reduced damage to front handrails

HANDRAIL 5000157

HANDRAIL 5000160

SANDVIK TH663 / TH551 Rear Tray Protection

Benefits include:

- Designed for the TH663 and TH551 trucks to prevent falls and slips off the back of the truck when the tray is up
- Permanently fixed onto the truck
- Fold in gates ensure that the handrail setup stays compact when not in use

Bend-tech Handrail System to suit Epiroc MT65 2017 & Beyond

Make your handrail storage and replacement more efficient, and **SAVE 62%** on your handrail costs (compared to OEM handrails)

- Reduce over ordering and wastage
- Easy part identification
- Rack galvanised and certified
- Also available for Caterpillar and Sandvik machines

Rack capacity:
3 complete sets

“**Making maintenance on-site safe, efficient and easy**”

Buy one complete set for your machine and we will supply a dedicated storage rack free of charge.

Bend-tech Handrail System to suit CAT2900

Make your handrail storage and replacement more efficient, and **SAVE 56%** on your handrail costs (compared to OEM handrails)

- Reduce over ordering and wastage
- Easy part identification
- Rack galvanised and certified
- Also available for Sandvik and Epiroc machines

Rack capacity:
3 complete sets

“**Making maintenance on-site safe, efficient and easy**”

Buy one complete set for your machine and we will supply a dedicated storage rack free of charge.

Maintenance Platforms

Part No. 5501823

CAT AD30 Tray Access Platform

Construction: Heavy duty aluminium

Forklift Slots:

- Non-slip grating
- Handrails fully removable
- Self-closing gate

WLL: 600kg

Height: 2150mm

Part No. 5501806

CAT AD45B Rear Tray Access Platform

Construction: Heavy duty aluminium

Forklift Slots:

- Non-slip grating
- Handrails fully removable
- Self-closing gate

WLL: 600kg

Height: 2550mm

CAT AD55B Access Platform

Construction: Heavy duty aluminium

Forklift Slots:

- Non-slip stairway and work area
- Self-levelling jacks
- Self-closing gate
- Foldable handrail wings

WLL: 600kg

Height: 2200mm

Part No. 5501846

Maintenance Platforms

Part No. 5501730

CAT 2900 Bucket Reconditioning Platform

Construction: Heavy duty aluminium

Forklift Slots:

- 4 x sections bolt together to combine in one square shaped platform
- Removable handrails

WLL: 250kg

Height: 1700mm

SANDVIK LH621 Loader Front Access Platform

Construction: Heavy duty aluminium

Forklift Slots:

- Platforms allow easy access from the bucket right to the cab
- Left hand and Right hand are symmetrical
- Double height handrails at tyre points to prevent falls
- Flip up grating sections on deck

Part No. 5501967

“ Engineered tough but light enough to carry ”

Alltuff Stands

Alltuff Stands have been engineered to transform safety and combat the failures associated with traditional work stands. Alltuff Stands are a high capacity light-weight stand with load ratings of 15T and 30T and a maximum manual handling weight of 14kg.

Available at three fixed heights:

15 Tonne Equipment Work Stand

- 500mm - 5001850
- 600mm - 5001851
- 750mm - 5001852

30 Tonne Equipment Work Stand

- 500mm - 5001853
- 600mm - 5001854
- 750mm - 5001855

Workshop Trestle Stands

Our trestle stands are engineered and certified with full compliance with Australian Standards. Designed for safe, efficient and easy site maintenance and available in lightweight aluminium or steel.

Features include:

- Removable top sacrificial section
- Certification plates and SWL markings
- Heavy duty steel or aluminium construction
- Stocked and available for immediate despatch

10T (SWL)
5001813

5T (SWL) 5001805
1000mm (w) x 900mm (h)
5T (SWL) 5001760
2400mm (w) x 900mm (h)

Aluminium

750kg (SWL) - 5501966

1500mm (w) x 900mm (h)

750kg (SWL) - 5502035

1200mm (w) x 900mm (h)

General Purpose Steel Rack

Our general-purpose steel racks are available in three standard configurations:

➤ 6m - 5000222 ➤ 7.5m - 5000221 ➤ 9m - 5000219

Features include:

- 8 shelves (4 either side)
- 3T (SWL) per shelf
- Lifting eyes for easy mobility and transport
- Modular design for ease of transport and erection on-site
- Cantilevered to provide optimum space utilisation
- Fully engineered and certified with Australian Standards
- Available in 6m, 7.5m and 9m configurations

Workshop Whiteboard Benches

Our whiteboard workbench is designed to encourage workshop efficiency and collaboration. Incorporating a large workbench, storage shelving and whiteboard provides your team with a base to work, delegate and organise.

Features include:

- Heavy duty mine specified construction
- Heavy duty castors for easy mobility
- Customisable for your specifications
- Large 1450mm whiteboard

Part No. 5001812

Our long-standing relationships, expertise and dynamic team of solutions engineers has enabled us to provide certified efficiencies across a range of fixed plant scenarios. We understand that fixed plant maintenance requires safety, speed, accuracy and reliable execution to achieve operational efficiency. This has led us to develop a range of solutions designed and engineered to satisfy these very requirements.

The ability to 3D scan, process, design, engineer and fabricate means we can solve your on-site problems. Ensuring certification and compliance is at the forefront of every product or service and understanding that some situations require customisation; we are trusted partners in safety, efficiency and productivity.
